

Green Chemistry in the New Economy

Incentivizing Investment for California's Job Growth and Innovation

Join us for an invitation only event to explore how California's Green Chemistry Initiative and AB 1879 can spur investment, job growth, and innovation. Key stakeholders will gather, using collective intelligence technology to assess opportunities and challenges in building the new economy of the future, and generate opinions and recommendations for Governor Brown and legislature.

Key Stakeholders will include:

Investors
Entrepreneurs
Manufacturers
Small Business Owners
Designers
Academia
Regulators
Legal counsel

WHEN **Friday, November 4, 2011**
10am - 4pm
Lunch Provided
\$50/Participant

WHERE **Autodesk Gallery**
One Market Street, Suite 200, SF
